

Women of Wisdom is a non profit fellowship organization composed of diverse women seeking to improve the lives of women and young girls through encouragement, empowerment, and support of a strong networking system. Furthermore, one of our biggest projects is The House of Refuge (THOR), a transitional living facility for women who suffer from negative life circumstances. THOR offers living arrangements, counseling, job placement assistance, vocational opportunities, opportunities to further education and outpatient care. There is no charge for residents to receive services at THOR, therefore we seek monetary help from businesses, organizations and fundraisers! Please support us as we seek to help women to better themselves!
